

**UMBC UGC Program Changes & Other Request: Computer Engineering**

Date Submitted: 11/12/2015

Proposed Effective Date: 8/2016

	Name	Email	Phone	Dept
Dept Chair or UPD	E. F. Charles LaBerge	<a href="mailto:elaber1@umbc.edu">elaber1@umbc.edu</a>	5-5684	CSEE
Other Contact	A. Joshi	<a href="mailto:joshi@umbc.edu">joshi@umbc.edu</a>	5-2590	CSEE

**Specifics (see instructions):**

This change makes a minor clarification to the requirements for the Cybersecurity Track in Computer Engineering.

<b>CyS Trk</b>	Notes from Spring 2016 submission	<b>Revised Information</b>
CMSC421	already reqd for BS-CMPE	(no change)
CMSC426	426 already List A for CMPE	(no change)
CMSC481	481 already List A for CMPE	(no change)
CMPE315	already List A for CMPE	(no change)
CMPE415	already List A for CMPE	(no change)
CyS Elective	from cross-disciplinary list	<b>Chosen from List C</b>
450/451	already reqd for BS-CMPE	(no change)

**Rationale (see instructions):**

Initial advising experience in Fall 2016 and Spring 2017 has shown that the Cybersecurity Track, as originally approved, is unclear as to which electives are acceptable. Inclusion of List C resolves that ambiguity with a sufficiently robust set of courses to assure that students have options and that new (CMPE491 and CMSC491) courses offered as special topics are automatically included.

List C courses are defined in a simultaneous program change submitted to UGC.
