Date Submitted:

Proposed Effective Date:

SPECIFICS: We request the following changes to the HAPP/SOWK double major:

- 1. Update the core requirements for HAPP courses and the elective requirements for the double major.
- 2. Students who complete SOWK 482 will use this course as a substitute for HAPP 470 (HAPP Internship).

Curriculum changes:

 earn a grade of "C" or better in all HAPP, SOWK and elective courses that count towards the double major. HAPP core courses: 39 credits HAPP core courses: 39 credits HAPP 100: Survey of the US Healthcare System HAPP 200^{1:} Human Dev., Implications for Health and Disease HAPP/SOCY 452: Healthcare Organization & Delivery HAPP 495^{2:} Internship (REMOVE) earn a grade of "C" or better in all HAPP, SOWK and elective courses that count towards the double major. ¹ HAPP 200 will meet the SOWK Department's Human Biology requirement.

² SOWK 482 will substitute the internship requirements for HAPP majors.

³ This course will be used to meet the SOWK Departments' 470 requirement.

Rationale:

The changes to the HAPP courses for this double major follow the changes to the HAPP curriculum that were recently approved by the UGC (submitted 3/8/2016), which emerged from the most recent Academic Program Review. The changes to the HAPP curriculum focused on updating critical training areas and streamlining core, track and elective coursework to ensure consistency across the major. These changes also affected the course requirements for the HAPP/SOWK double major, although remain exclusively related to HAPP courses.

Rationale for adding/deleting courses:

HAPP core course additions:

- **HAPP 300**: Research Methods in Health: This new course was submitted to and approved by the UGC earlier this year. It is a core course and a pre-requisite for other upper level courses, and takes the place of HAPP 412 in the new curriculum.
- HAPP 340: Health Communications. As suggested by the APR reviewers and comparable programs at other universities. This course has been taught several times as a special topics course and has been approved by the UGC as a new course. ENGL 393: Technical Communications will be accepted as an alternative.
- HAPP 350: Public Health Ethics OR MGMT 385: Business Ethics & Society: Training in ethics is increasingly important in today's workplace and particularly in the health field. Ethics courses are found in comparable programs at College Park and Towson. HAPP has been taught in the past as a special topics course and has been approved by the UGC as a new course. HAPP majors who wish to pursue careers in public health can enroll in HAPP 350, while those who want to pursue careers in health services management can enroll in either HAPP 350 OR MGMT 385.
- HAPP 470: Internship: A new 6-credit course, HAPP 470 effectively replaces HAPP 495 and HAPP 496, and relies on training and services provided through the Career Center. This course requires completion of a minimum of 208 hours in a health services administration, health policy or public health setting, enrollment in PRAC 98, and an academic component delivered through Blackboard and on-campus seminars.
- HAPP 420: Public Health Epidemiology: This course is taught every semester and it is a core requirement for the Public Health track. The course attracts mainly HAPP majors but also targets other majors with an interest in the health field who meet the pre- requisites and or who have a need for an epidemiology course. HAPP majors in track III (Public Health) are required to take HAPP 420 but SOCY 420: Social Epidemiology can be used effectively to satisfy elective requirements for majors who do not need HAPP 420.

HAPP core course deletions:

- ENGL 391: Advanced Exposition and Argumentation. This course is no longer relevant to the HAPP major
- IS 101: Introduction to Computer-Based Systems. This course is no longer relevant to the HAPP major
- IS 295: Intermediate Business Applications. This course is no longer relevant to the HAPP major
- **STAT 121 OR SOCY 301**. Two additional courses in statistical methodology are being added.
- HAPP 497: This course belongs to the track I (Health Services Administration) requirement and will be available as an elective.
- **ECAD 210**: The Practice of Management. This course is not a core requirement for the HAPP major.
- **SOCY 300^{3:}** Social Research Methods. This course is not a core or track requirement for the HAPP major but will be available as a potential elective.
- **SOCY 354**: Social Basis of Community & Public Health. This course belongs to track III (Public Health) requirement and will be available as an elective to the other two tracks.

- HAPP 495^{2:} Internship. This course will be phased out and substituted by HAPP 470 and PRAC 98, as approved by the UGC.
- HAPP 496: Internship Seminar. This course will be phased out and substituted by HAPP 470 and PRAC 98, as approved by the UGC.
