**CURRENT CATALOG DESCRIPTION:**

This one-semester experiential learning internship places students at established agencies, organizations or businesses providing services. The student will either undertake a new project on behalf of the organization or participate in meaningful fashion in an ongoing project to improve/augment services, evaluate performance or quality, or contribute to a new initiative under the immediate supervision of an identified onsite mentor. Student placements will reflect the intended career trajectory (government/policy, human services/aging network or business/for-profit services) and be conducted with oversight by a faculty member in the school, via the attached seminar (AGNG 461) for which students must be concurrently enrolled.

**PROPOSED CATALOG DESCRIPTION** (no longer than 75 words): leave blank if no changes are being proposed to the catalog description. NOTE: information about prerequisites should NOT appear in the catalog description.)

**RATIONALE FOR CHANGE:** In order to provide students with an adequate amount of hours to participate in their internship the Undergraduate Curriculum committee has decided to reduce the number of work hours students must complete. This decision was partially based on student and employer feedback (some students would like to visit two internship sites- and therefore an additional 3 credit hours can be taken as an elective at a different internship site) but also on other programs at UMBC who offer an internship program.
