Course number & title: Enter the number and title of the course at the top of the page. Contact the Registrar’s Office to confirm that the desired course number is available.

Date submitted: The date that the form will be submitted to the UGC.

Effective date: The semester the new course is in effect, if approved.

Contact information: Provide the contact information of the Chair or UPD of the department or program housing the course. If the course is not housed in a department or program, then provide the same information for the head of the appropriate academic unit. (See UGC Procedures) If another faculty member should also be contacted for questions about the request and be notified about UGC actions on the request, include that person’s contact information on the second line.

Course number: For cross-listed courses, provide all the numbers for the new course.

Transcript title: Limited to 30 characters, including spaces.

Recommended Course Preparation: Please note that all 300 and 400 level courses should have either recommended course preparation(s) or prerequisite(s) and that 100 or 200 level courses may have them. Here fill in what previous course(s) a student should have taken to succeed in the course. These recommendations will NOT be enforced by the registration system. Please explain your choices in the “rationale” (discussed below).

Prerequisite: Please note that all 300 and 400 level courses should have either recommended course preparation(s) or prerequisite(s) Here fill in course(s) students need to have taken before they enroll in this course. These prerequisites will be enforced through the registration system. Please explain your choices in the “rationale” (discussed below).

NOTE: Please use the words “AND” and “OR”, along with parentheses as appropriate, in the lists of prerequisites and recommended preparation so that the requirements specified will be interpreted unambiguously.

NOTE: Unless otherwise indicated, a prerequisite is assumed to be passed with a “D” or better.

Maximum total credits: This should be equal to the number of credits for courses that cannot be repeated for credit. For courses that may be repeated for credit, enter the maximum total number of credits a student can receive from this course. E.g., enter 6 credits for a 3 credit course that may be taken a second time for credit, but not for a third time. Please note that this does NOT refer to how many times a class may be retaken for a higher grade.

Grading method(s): Check all that apply.

Proposed catalog description: Provide the exact wording of the course description as it will appear in the next undergraduate catalog. Course proposals should be a) no longer than 75 words, b) stated in declarative sentences in language accessible to students, and c) avoid reference to specific details that may not always pertain (e.g., dates, events, etc.). Course descriptions should not repeat information about prerequisites (which are always listed alongside the course description).

Rationale: Please explain the following:
  a) Why is there a need for this course at this time?
  b) How often is the course likely to be taught?
  c) How does this course fit into your department’s curriculum?
  d) What primary student population will the course serve?
  e) Why is the course offered at the level (i.e., 100, 200, 300, or 400 level) chosen?
  f) Explain the appropriateness of the recommended course preparation(s) and prerequisite(s).
  g) Explain the reasoning behind the P/F or regular grading method.
  h) Provide a justification for the repeatability of the course.

Cross-listed courses: Requests to create cross-listed courses must be accompanied by letters of support via email from all involved department chairs. Proposals for new courses or the addition of a cross-listing to an existing course must include as a part of the rationale the specific reason why cross-listing is appropriate. Email from all involved department chairs is also required when cross-listing is removed and when a cross-listed course is discontinued. Please note that Special Topics courses cannot be cross-listed.

Course Outline: Provide a syllabus with main topics and a weekly assignment schedule which includes complete citations for readings with page numbers as appropriate. Explain how students’ knowledge and skills will be assessed.

Note: the UGC form is a Microsoft Word form. You should be able to enter most of the information by tabbing through the fields. The document is protected. In the rare case that you need to unprotect the document, use the password ‘ugcform’. Beware that you will lose all the data entered in the form’s fields if you unlock and lock the document.

PROPOSED CATALOG DESCRIPTION (no longer than 75 words):

This course introduces students to the theories and methods that historians use to analyze and interpret material culture. In this seminar style course, students will explore and discuss the history of American museums and their collections. They will also analyze the value of material culture as historical evidence. This class is intended for upper level students who have experience in conducting primary and secondary source research.

RATIONALE FOR NEW COURSE:

The UMBC Department of History is in the process of improving the number and quality of courses offered to students as part of the undergraduate minor in public history. The Department has approved a plan for offering public history courses on a regular and predictable rotation so that students can more easily chart a pathway toward graduation and select an area of specialization within the field of public history. The addition of this course is part of our plan to offer a specialization in museum studies for public history minors.

This course will be taught once every other academic year. It is designed to be of particular interest to public history minors, but it is a skill-building class that fits into the Department’s larger effort to ensure our curriculum provides students with opportunities to acquire diverse skills in research and analysis. Although historians have recognized material culture as historical evidence for several decades, our Department has not offered students a focused opportunity to explore the theories and methods of material culture analysis and interpretation.
This class is designed to fill a niche for history majors, but it is also appropriate for American Studies majors, Anthropology majors, Visual Arts majors, and others for whom the analysis and interpretation of material culture has applicability.

We are offering material culture as a 400 level course because it is not a general education course, nor is it appropriate for students who have not achieved upper level facility in research and writing. It will best suit students who have already developed core skills in research, writing, and analysis. While the course is designed for students to add skills to their analytical tool kit, it will not teach basic research and writing. Weekly course meetings will be run seminar style so students and faculty can tangle with difficult theoretical essays and monographs. Students will participate in a semester long research project and produce a significant work of historical analysis.

While the course is designed for upper level students, it is not necessarily relevant only to history majors. As a result, we have decided not to require specific pre-requisites that might prevent students from AMST or ANTH or other departments from taking the course. The recommended preparation and the course description indicate students should come to class prepared to engage in a significant research project.

Finally, this is not a topics course, therefore it cannot be repeated for credit. Because this course can count towards the public history minor or as an elective towards the history major, it will be adopt the regular grading method.
