Specifics (see instructions):

Biological Sciences BA degree: Upper Level Laboratory Electives

Current: Students must complete the following course: any 300 Level BIOL Lab (3XXL) beyond BIOL 300L.

Proposed: Students must complete one of the following courses: any 300 Level BIOL Lab (3XXL) beyond BIOL 300L, **or BIOL 422L**.

Rationale (see instructions):

BIOL 422L—Microscopy & Imaging Techniques fulfills all the requirements for the BIOL upper level lab elective. Current wording for the major does not allow for students to use the course in fulfillment of upper level lab elective. This proposal adds BIOL 422L as an option for students.
