Rationale (see instructions):

Briefly explain the need for this proposal. For changes in program requirements, explain

- a) What are the major departures from the current structure and why is the new structure preferable?*
- b) What provisions will be made to accommodate current students if courses are discontinued?*
- c) If there is a change in required credits, please provide a specific justification for that change.*

There is no overall change in credits, just a slight re-distribution from featured lower level courses to upper level courses. The courses added (304, 305) are the equivalents of 301 and 302 for heritage speakers, hence no change. The note about 16 credits in Spanish was removed due to redundancy. The only change of note is the removal of SPAN 401 from the required courses. Most students who take 22 credits are not prepared to take the 'capstone' (SPAN 401) which is required of those who are completing a full major at the end of their program, but that they could successfully complete 400-level courses like 472 and 421.
