PROPOSED CATALOG DESCRIPTION (no longer than 75 words):

This seminar supports students in intentionally designing their pathway through the Grand Challenge Scholars Program by the selection and creation of their qualifying experiences, provides students with a forum to exchange their experiences and insights with each other, and offers scaffolding for them to build their e-portfolios and reflect on their experiences. Permission required.

RATIONALE FOR NEW COURSE:

Students will take this one-credit seminar in their second semester in the program. The seminar will provide a structured environment for students to design their pathways through the required program experiences, beginning to construct the e-portfolios that will serve as documentation of their experiences, and that will be used for assessment and verification of the program requirements. The Program Seminar is the second of three one-credit seminars that are required for Grand Challenge Scholars. Permission required.
