Hello Aryya,

At the end of last semester, the GWST Core faculty decided to update the course description for GWST/CMSC/IS 352, Women, Gender, and Information Technology, to better reflect the content of the course. We submitted this change to the UGC who approved the change at their last meeting. Unfortunately, we neglected to receive your approval before securing UGC approval.

Attached, you'll find the course description as it was approved by the UGC. If you approve of the new description, I would appreciate it if you could send a brief email noting your acceptance of our changes. We will pass that along to the UGC for their records.

Thank you.

Best,
Carole McCann
Chair, Gender and Women's Studies

Hi Carole:

We accept these changes. Thanks.

Aryya
