Specifics (see instructions):

1. Changes to the Core Curriculum and Electives

| MAgS Minor Current (18 credits) | MAgS Minor Proposed (18 credits) | Proposed Change |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Students interested in a minor program to combine with a wide range of academic majors may undertake a 18 credit hour minor program with the following requirements: | Students interested in a minor program to combine with a wide range of academic majors may undertake a 18 credit hour minor program with the following requirements: | Core: Reduced from 6 to 3 credits AGNG 100 is no longer a core course and becomes an elective |
| Core: 6 credits AGNG 100 - So You Say You Want a Revolution: How Boomers are Revolutionizing Aging (3.00) AGNG 200 - Aging People, Policy and Management (3.00) | Required Core: 3 credits AGNG 200 | |
| Electives: 12 credits Two 300-level courses and two 400-level courses, selected in consultation with the student's major advisor, from the approved content electives list. | Electives: 15 credits Electives may be selected, in consultation with the MAgS Academic Advisor or Undergraduate Program Director, from the following: Three elective courses (9 | Number of elective credits increased from 12 to 15 AGNG electives can be AGNG 100 or any AGNG 300 OR 400 level courses with the exception of AGNG 470 |
| Please visit the Erickson School website for the list | credits) must be AGNG designated courses and can be any AGNG course | All electives previously |

| MAgS Minor Current (18 credits) | MAgS Minor Proposed (18 credits) | Proposed Change |
|------------------------------------|--------------------------------------------------------------------------------|-----------------|
| | Note: All courses in the Minor must be completed with a grade of "C" or better | |

Rationale (see instructions):

A. Reduction in the number of required core courses

After a review of the curriculum structure and the undergraduate Management of Aging Services (MAgS) program learning objectives, changes are proposed to the core curriculum to better reflect these and the identified core competencies that our students need to develop for current and anticipated future aging services careers.

Also, reducing the number of required core curriculum credits for the Minor and offering more courses as elective courses would still provide students with core content knowledge in MAgS while also providing them with the opportunity to take elective courses in areas most closely aligned with their career goals.

This will allow students in specific disciplines, such as IS, HAPP, PSYCH, SOCY, SOWK that have an interest in aging to take two approved courses within their major discipline that relate to aging and also use them as courses in their Management of Aging Studies Minor.

AGNG 100 no longer a core course – becomes an elective.

Upon review of AGNG 100, it was determined that the material in this course did not include a lot of core required material for the major and could be included as an elective course. AGNG 200 provides core knowledge of the biophysical, psychological, social, and economic aspects of aging which constitutes the foundation of the Undergraduate MAgS program.

Also, not including AGNG 100 as a core required course for the MAgS minor would allow students to take more elective courses in areas of aging services which will most help them to achieve their career goals.

Current MAgS Undergraduate Minor students will not be impacted by these changes.

B. Elective Courses

Elective Options

In order to ensure that students have the opportunity to take an adequate number of AGNG courses which will enable them to fulfill their career objectives, nine of their required elective credits will be required to be AGNG

courses and they will have the option of taking two aging related courses (6 credits) from outside the program selected from the list of approved elective courses.

Electives listed are those previously offered for either the Management of Aging Studies Minor programs (with five additional courses – please see below) but not previously listed in the catalog as the current catalog entry states "Please visit the Erickson School website for the list of approved electives."

Additional Electives:

HAPP 498, IS 304, POLI 354, PSYCH 306, PSYCH 307 have been offered as electives to our MAgS Majors but not as electives for the MAgS minors. With permission secured (please see Appendix) we propose offering these courses as elective options for the students in the MAgS Minor in order that students in additional major programs of study with an interest in aging have the flexibility to take up to two (3-credit courses) in their primary program that will also count towards their electives for the MAgS Minor.

300 or 400 Level Requirements

Additionally, electives courses were previously required as two 300 level and two 400 level courses. Allowing the students to select all their elective courses as AGNG courses and from a list of electives, which contains predominately 300 or 400 level courses, allows for greater flexibility in their program of study while still maintaining the academic rigor as all courses the majority of their courses will remain as upper level courses. As an exception, AGNG 100, while not deemed to be core curriculum, is useful to Management of Aging Studies minors and is considered appropriate to include this 100 level course as an elective option.

Current MAgS Undergraduate Minor students will not be impacted by these changes.

Appendix Original Emails Available on Request

J Kevin Eckert Thu, Dec 19, 2019, 11:17 AM to Cathryn, Sarah, Katie, me, Dana

On behalf of the Department of Sociology, Anthropology, and Health Administration and Policy I would like to extend my support of the Erickson School of Aging using HAPP 498 and HAPP 405 as electives for the Management of Aging Services undergraduate major (BA) and minor programs.

Kevin

Dr. Vandana Janeja Wed, Dec 18, 2019, 8:05 PM to Sreedevi, Richard, zhiyuan, me

Louise

After consulting with our program directors copied here, we are happy to have IS 304 listed as an elective for your minors.

Thanks

Vandana

Anne Brodsky Thu, Dec 19, 2019, 1:59 PM to me

Dear Louise,

Thanks for writing. PSYC is totally in support of your making PSYC 306 and PSYC 307 electives for MAS majors and minors.

Have a good break

Best, Anne

Carolyn Forestiere Thu, Dec 19, 2019, 11:37 AM to me

Dear Louise,

Thank you for your email. We support POLI 354 as an elective course for your MAgS minor. I should note, however, that at present we do not have a regular instructor for the course. Hopefully that will change by next fall but I can't be 100% sure until we start scheduling.

All best, Carolyn

Carolyn Forestiere, Ph.D.
Associate Professor and Chair
