Hi Rose,

I'm going to try and find time today to dump these all into 1 document, but for now am forwarding them to you as is. Not sure when the meeting is, but you'll have them just in case it is before I can get to combining them.

Sorry about this, but there is just too much going on with the online teaching transition right now.

regards

Anupam

Hi Anupam,

I believe these courses would be fine to include in the minor, but not being in my particular specialty, I'm not as familiar with their content as my colleague who teaches them (it's all the same primary instructor: Adam Mendelson). He proposed these, and I support it, but if you'd like to share more information about the minor with me or ask us more questions, please let me know your time-frame.

You can see on the course rotations under the tab "current students" and the BA in Theatre (either track) on the umbc theatre webpage when and how often they are taught.

best

Colette

Hi Colette,

Adam sent in the following list of courses that he thought would work well in a potential new minor in computing. Anupam Joshi, is putting together a proposal for the UGC to get the minor approved and could use an email from you supporting these THTR courses being part of the minor. If you have specific questions about the minor, please contact Anupam directly.

Thanks

John
