**Prerequisite:** *Please note that all 300 and 400 level courses should have either recommended course preparation(s) or prerequisite(s)* Here fill in course(s) students need to have taken before they enroll in this course. These prerequisites will be enforced through the registration system. Please explain your choices in the "rationale" (discussed below).

### PROPOSED CATALOG DESCRIPTION (no longer than 75 words):

This course is an introduction to the problems and concepts of moral philosophy that focuses on current moral issues. Students learn the basic structure of classical moral theories and their implications, the nature of moral reasoning and argument, and the meaning and justification of moral concepts such as obligation and rights. Topics may include free speech, abortion and euthanasia, environmental ethics and climate change, the rights of animals, global hunger and poverty, and distributive and compensatory justice.

### RATIONALE FOR NEW COURSE:

PHIL 150H is identical in content to PHIL 150, but PHIL 150H will be restricted to Honors College students, have a smaller enrollment, and have a more demanding workload. We offer one Honors College introductory level course every semester, on a long-term agreement with the Honors College. We have previously been offering PHIL 100H and PHIL 152H. Since we now have a recently hired specialist in applied ethics, Dr. Blake Francis, we'd like to offer PHIL 150 every other year as an Honors College course. We will be offering this course in Fall 2022. As with all our courses, we allow for the possibility of students taking the course for a grade, P/F, or audit. Since this is an introductory course, there are no prerequisites or recommended preparations.
